

DN. Droughtmaster National

- Droughtmasters will occupy the all of the A, D & E yards plus the B & C yards west of the catwalk
- Braford's will occupy Austadium plus the balance of the yards
- Both breeds have increases in both vendors & bull numbers this year
- Droughtmaster vendors in "D" yards should be aware that watering shall be by way of temporary tubs as these yards are normally dry yards. CQLX advises that all yards will be adequately watered. Yard wise they are very good.
- The A & D yards have been allocated to vendors who sell wholly on day one. In total there are 150 bulls in this eastern area & as such will be a focal point for buyers.
- Throughout the complex a number of yards have been reserved to ensure bulls that fight can be accommodated. Should you encounter a problem contact Bill Zahnleiter on 0408756303 to help you locate one of these yards.
